Certificates & Quality

MB LABS

COOPERATION MODELS

OEM

COOPERATION

For established brands:

We manufacture under your brand based on your formula and specifications.

ODM

COOPERATION

For new brands:

We offer product development, design, and manufacturing from a single source.

OBM

COOPERATION

For customers with their own brand:

We deliver finished products for distribution under your brand.

COOPERATION PROCESS

The production time is usually 6–7 days, with a processing time of 10–20 days. We offer a complete service from product design to delivery.

1 Choose a cooperation model

Nutzen Sie unsere Standardformeln oder individuelle Rezepturen – wir unterstützen ODM, OEM und OBM.

3 Product order

After confirmation of the sample, the order and down payment are placed.

5 Fast Delivery

Packaging, payment, and shipping preparation – your product is on its way.

2 Sample selection

Online selection of samples, shipment of product samples, processing of semi-finished products, and labeling.

4 Mass Production

Procurement of raw materials, fast production at the factory, and quality control by the QC department.

TABLET-SERIES

We specialize in the export of high-quality chemical raw materials for dietary supplements.

Examples: Spirulina tablets, multivitamin supplements for women, electrolyte complexes, prenatal vitamins.

GUMMY-SERIES

We specialize in the production and export of functional gummy products – ideal for the health market.

Examples: Creatine gummies, melatonin gummies, collagen gummies, probiotic gummies for women.

CAPSULE-SERIES

The capsule products from Mindabolics Labs combine high-quality raw materials with modern production standards – ideal for innovative nutritional supplement solutions in the health and sports sector.

Examples: Omega-3 fatty acids, squalene & fish oil softgels, flaxseed oil capsules, multivitamin complex.

CAPSULE-SERIES

Our capsules are high-quality, pure, and free from artificial additives – ideal for effective health solutions.

Examples: Ashwagandha + Rhodiola, turmeric + black pepper, L-carnitine, vitamin D3 + K2, coenzyme Q10.

POWDER-SERIES

Pure, highly concentrated, and free from additives – our powders are ideal for sports, dieting, and functional nutrition.

Examples: Creatine monohydrate, organic stevia, electrolyte blend, pre-workout complex.

DROPS-SERIES

Effective active ingredients in liquid form – perfectly dosable, fast-acting, and without unnecessary additives.

Examples: Shilajit extract, biotin + collagen, vitamin B12, zinc + selenium drops.
